

## CARBINE HARDWARE

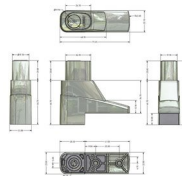

Carbine is the next generation in locking. Carbine is a high-end brand of locking and hardware that is chosen by locksmiths and installers. Until Carbine, developments in mechanical locking systems had been few and far between. Even when a way was found of improving a current series of locks, there was little desire on the part of the manufacturers to change what 'always has been

the way'. Carbine pushes the boundaries and looks to solve the problems that have dogged the industry for years. The Carbine Hardware range incorporates door hardware and trim plates, cabinet and furniture locking, window & patio door locks. All Carbine products feature innovative designs and modular functionality so you get a product that solves problems.

## GLASS SHOWCASE LOCK

A range of high quality locks designed for glass showcase cabinets. This range features a modular design to allow 3 different modes of operation. Features include:

- Uses a standard 530 cylinder
- Includes modular inserts to allow 3 modes of operation
- Snap lock mode where the cylinder is simply pushed to lock
- Lock open / closed mode where the key is used to lock the pin in place
- Key retain mode where the key is held in the lock when open
- Stainless steel locking pin
- Retro fits for most common models
- Keyed to differ, less cylinder and keyed alike models available
- Available in finishes of satin chrome and black powder coat
